Great Skin!!!. This is like, the only good Skin DLC.. I finished game with these clothes. It looks cleanest of all the possible skins. She has only one glove on left hand, looks smooth and simply clothed.. Overall I like this skinn, I got all of them on a sale so it was good deal, but there is one thing I think it would be better. Instead of the red and bright brownish pants, I think it would be much better if the color was dark green with black leather. Like some people say in general the island is a dark place (not only because of the lore), but because of the nature on it - mostly rocky with dark green plantation and would be a very good camouflage. Anyway even if I enjoyed this one I prefer the Guerilla Skin, because it blended better with the enviroment and has 1 thing that this skin greatly miss - Lara's wounds. During the game progress we see her in very cruel situations - stabbed, hitted, falling and whats so, the original skin has all the details about that and the Sure-Shot skin is like she just arrived on the island and all the way thru the game she almost doesn't have a scratch. With the Guerilla Skin however I noticed she has even more bloodVscars on her shoulder and face, which is why I played most of the time with the Guerilla Skin.

And - a small (almost insignificant) spoiler for Arrow TV show if someone didn't watch it but intend to:

--- I know it's not really on the topic but I was a huge fan of the 1st and 2nd season of the Arrow show, and the island has similarities with Lian Yu (the island Oliver Queen crached in North China Sea, similair to Lara). SO I think there is somekind of connection between Lara and Oliver with this island situation (+ both mastered archery) and the enviroment and nature seems similar. It would be pretty cool if this "archer" skin was similair to the 1st version of Oliver's Arrow suit (without the hood). Just IMO.. 10V10 would bang Lara. Hot red sexy costume. Remind me Clair from Resident evil. Worth to buy it.. Outfit Lara with the Demolition Gear, featuring an engineering jumpsuit and belt pack (single player outfit)
how do i change costume for character .. As unlockable I would recommend it, cannot recommend someone to pay for this, it is outrageous. Instead of nothing when you find all secrets and 100% the game, you could get skins not pay for them.

The skin has great & shiny colour but the only drawback is, the top slightly hides Lara's cleavage.

Not fair :(i love her boot shes sexy. 'Hunger Games' anyone?

It's cool to be able to change skins for your character but make it unlockable and add special abilities. For this skin, the ability could be infinite arrows and unlocked by killing a certain number of combatants with the bow.. **DLC verdict: Don't get it OR Get it in the bundle with the base game**

Comment:

It is just a new skin which you can change at the camp fires. However, it does not reflect the injuries Lara receives (unlike her default skin) so it is very immersion breaking. But it is part of the GOTY edition so you could get this through buying that version.

If you liked this DLC review you can find more in my [Review Corner.. It's one of my favourite costumes. It adds contrast to the grey world that surrounds her. Is it worth getting? Well I got it from a bundle, so no regrets here.. In my opinion the best skin for Lara](#)
